

# When All You Do Is Vacuums...

## They'd Better Be Darn Good Vacuums

# CLEANMAX™

# CLEANMAX™

Commercial Vacuums by Tacony Corporation

At CleanMax, we know vacuums. In fact, it's all we do. No scrubbers, burnishers or paper towels here, just vacuums. Darn good vacuums.

You might think a vacuum is a vacuum. We couldn't disagree more. We obsess over motor performance, machine durability and how to make vacuums someone actually wants to use. Having the right tool for your vacuuming challenge makes all the difference. And we've got it in the CleanMax lineup.

From the housekeepers and janitors who use them to the maintenance crew charged with keeping them running to the people who pay for them, everyone on your team will be completely satisfied with the decision to clean your facility with CleanMax vacuums.

# PRO-SERIES

The flagship machines from CleanMax, the Pro-Series vacuums are built to stand up to the toughest cleaning challenges day after day. With metal components used throughout the high-wear areas and a Clean Air System designed to protect the motor and the fan, durability is the cornerstone of these vacuums. Want even less downtime? Then you want the Pro-Series Zero, which features Hall™ Sensor belt protection technology to ensure you'll never change a belt again.

All Pro-Series vacuums feature HEPA media bags and filters to trap virtually everything these powerful vacuums suck up. In addition, all Pro-Series vacuums have earned a Silver Rating from the Carpet and Rug Institute.

## *Cadet Series*

CleanMax Cadet vacuums feature a Clean Air System design for fan protection, motor protection and HEPA media filtration. Plus, Quick Draw on-board tools put the vacuum's powerful suction right at your fingertips for above floor cleaning. These vacuums glide over the carpet so you can clean with just one pass.

Cadet vacuums carry the Silver Rating from the Carpet and Rug Institute, tested and approved for soil removal, dust containment and carpet appearance retention.

## ZOOM

Meet Zoom ... The World's Fastest Vacuum! Weighing only 8 pounds, the Ultra Lightweight upright from CleanMax couples extreme maneuverability with tremendous cleaning power to get the job done now! Plus, the Zoom is built to last with tough polycarbonate materials and an aluminum handle tube to ensure this upright will stand up to the toughest tasks day after day. All CleanMax Zoom models are built at our factory in St. James, Missouri, USA and have earned a Gold Rating from the Carpet and Rug Institute.

MADE in the U.S.A.

WITH GLOBALLY SOURCED COMPONENTS

## WIDE AREA VAC

The CleanMax Wide Area Vacuum is the Mac Daddy of commercial vacuums with a labor-saving ultra-wide 30-inch cleaning path, extreme durability and powerful cleaning performance. Featuring a Clean Air System designed to protect the motor and fan, the CleanMax Wide Area Vacuum performs like a pro, time and time again.

MADE in the U.S.A.

WITH GLOBALLY SOURCED COMPONENTS

## 6-Quart Backpack

When a traditional vacuum just won't do, the CleanMax Backpack will. With a new ergonomically designed shoulder harness and belt, the Backpack makes cleaning on, around and in between furnishings easy, thanks to the 7 included accessories. The unique kettle-plug design and strain relief system prevents cord pull out issues and greatly increases productivity. Don't be fooled by the quiet motor, its powerful suction quickly removes dirt and debris, whether it's on hard floors, carpet, ceilings or furniture.

The CleanMax Backpack has earned a Gold Rating from the Carpet and Rug Institute.

## Jet

The CleanMax Jet detail vacuum cleaner offers maximum portability, giving you the freedom to move up, down and all around to grab dust and dirt from any surface. Equipped with two wands, stretch hose, natural floor brush and full-size on-board tools, you'll transition from cleaning floors to shelves to cushions with ease. Plus, the Jet can quickly switch to a blower by inserting the hose on the back port. The compact and lightweight design of the Jet makes this versatile detail cleaner a pleasure to use, with or without the optional carry bag.

### CLEANER CARPETS AND HEALTHIER ENVIRONMENT

Four stages of filtration means cleaner carpets and cleaner air.

- Stage 1: A large capacity disposable paper filter bag keeps dirt where it belongs.
- Stage 2: The paper filter bag is enclosed in a reusable cloth filter bag for an extra layer of filtration.
- Stage 3: Each of the two vacuum motors contains an intake filter.
- Stage 4: On the other side of the motor, a high-performance cartridge filters the motor exhaust.

### COMFORT STRAPS

Thick shoulder straps and the waist belt adjust to all size operators and balance weight optimally.

### ON-BOARD TOOLS WITH CADDY & BLOWER PORT

Tools stay close at hand clipped to the back of the machine, and the hose moves easily from front to back to utilize the blower feature.

# What Do CRI Ratings Mean?

You dine at “five-star” restaurants, see movies that received “two thumbs up,” and tend to listen to musicians who “top the charts.” So why not check the ratings on vacuums, too?

While the dirt on the carpet surface is what gets noticed, it’s the deeply embedded dirt that causes premature carpet wear. Don’t just guess that your vacuum is removing this dirt—turn to the experts. The Carpet and Rug Institute (CRI) has developed a number of tests to identify top-notch vacuums that protect your carpet investment.

## How Do Vacuums Receive a CRI Rating?

Vacuums with the CRI Seal of Approval must pass a number of tests to ensure they are cleaning effectively and leaving carpets undamaged during vacuuming.

- Soil Removal: Vacuums must remove a substantial amount of dirt from carpeting.
- Dust Containment: Dust must remain trapped and unable to re-enter the air after cleaning to ensure the indoor air quality isn’t negatively affected by vacuuming.
- Surface Appearance Change: Carpeting must be undamaged after repeated vacuuming.

If a vacuum cleaner passes these tests, it receives a CRI Seal of Approval, but it’s not a simple pass or fail system. A vacuum that passes the Carpet and Rug Institute’s stringent tests is then ranked gold, silver or bronze based on its combined scores on these tests.

Learn more about CRI at [www.carpet-rug.org](http://www.carpet-rug.org).

# What Does LEED-Qualifying Mean?

**LEED  
Qualifying**

The U.S. Green Building Council developed the Leadership in Energy and Environmental Design (LEED) program to encourage greener construction and maintenance of homes and other buildings. How does this apply to vacuums? By using a LEED-qualifying vacuum cleaner, building owners can earn credits toward their LEED building rating.

LEED-qualifying vacuums must have a CRI seal of approval. They must also have rubber bumpers and an ergonomic design that minimizes vibration and noise during use. But it’s not just sound that’s important; cleaning is key to creating and maintaining healthy environments. Therefore, another critical aspect is filtration to ensure the vacuum has a positive effect on indoor air quality. To learn more about LEED-qualifying products, visit [usbc.org/leed](http://usbc.org/leed).

# Flat Out Better, but Don't Just Take Our Word for It ...

"The vacuum holds up very well and the design makes it very easy and affordable to repair. I love the pigtail feature which allows us to change damaged cords on site instead of having to send them to maintenance. We are seeing an overall increase in profitability by switching to CleanMax vacuums in a reduced upfront cost and substantially lower cost of operation. We are very satisfied with our decision."

"Initially we were concerned since the CMPS-QD cost significantly less than our current brand of vacuums but we decided to give it a chance. After 9 months of use, the vacuum has proven itself a remarkable value. It is a very reliable, powerful and practical machine for our maids and staff."

"We love the Zoom 600 for its functionality, durability, price point and low cost to repair and replace parts."

"We have used many brands of vacuums over the years ... more than I can count ... everything from high cost to low cost. Since giving CleanMax a try, we have been impressed with how well the vacuums pick up. CleanMax vacuums are priced fairly and outperform much of what I've seen on the market."

**People looking for vacuums with a better value proposition and lower cost of ownership are choosing CleanMax vacuums. Contact us today to learn how we can do the same for you.**
